The Story Behind Honeycomb Garden

Honeycomb Garden is a dessert inspired by the vital role of honeybees. Bees contribute to the pollination of around **75%** of global crops, making them essential to both our food systems and the health of ecosystems.

However, their numbers are declining due to pesticides, climate change, and other threats.

This dessert was created as a way to show gratitude to bees and to remind us of the importance of biodiversity and living in harmony with nature.

4P's vision, "Make The World Smile for Peace," centers on the concept of "Oneness" – recognizing the interconnectedness of all things as fundamental to individual and collective happiness.

In Indonesia, we strive to cultivate this understanding of Oneness between people, earth, and food, believing these small realizations contribute to universal happiness.

Pizza 4P's Indonesia
